

## Frequently Asked Questions for Science & Heritage Studentships

### **1. How do I find out whether my HEI holds an EPSRC DTG?**

Potential applicants should ask their HEI's DTG coordinator or their research office in the first instance. Further information on the EPSRC's DTGs can be found [here](#).

### **2. How do I find out whether my HEI would be willing to ring-fence one, half studentship from their 2008 DTG allocation?**

Again potential applicants should discuss this with either their HEI's DTG coordinator or their research office. They will be able to give advice regarding the DTG status and whether it is feasible to apply to this call.

### **3. What do I do if the HEI doesn't receive an EPSRC DTG or is not willing to allocate one, half of a studentship?**

As stated in the call document, any applicants whose HEI is not in receipt of an EPSRC DTG is advised to submit a proposal to the [AHRC's Collaborative Doctoral Awards](#) competition instead.
